PROFILE

Motivated and dependable Computer Science student at Louisiana Tech University with experience in IT support. A quick learner who enjoys helping others, adapting to new challenges, and working in a team-oriented environment. Seeking an opportunity to contribute my skills while gaining valuable professional experience.

EDUCATION

Louisiana Tech University, *Bachelor's in Computer Science* 3 Dec 2024 – Current | Ruston, LA
Pursuing a Computer Science degree with a strong interest in programming, problem-solving, and software development. Building foundational skills through coursework and hands-on projects.

PROFESSIONAL EXPERIENCE

ICT Help Desk Agent, *Louisiana Tech University* 3 Jan 2025 – 7 Oct 2026 | Ruston, LA
Assisted users with computer issues, Wi-Fi connections, software, printers, and university accounts. Troubleshot technical problems and helped users find practical solutions. Installed, updated, and configured computer software and equipment. Worked with the IT team to resolve issues and maintain smooth daily operations.

KMC Secondary School, *Science & Technology Teacher* 2023 – 2024 | Kathmandu, Nepal
Taught Science, Technology, and basic coding to secondary students, creating simple lessons and guiding hands-on activities to build logical thinking and problem-solving skills.

SKILLS

Programming: Python, Java, JavaScript, HTML/CSS, Django, Flask, FastAPI, MySQL, Algorithms, Debugging, Object-Oriented Programming.

Frameworks and Tools: Tkinter, Pygame, OpenCV, Qt, Docker, Git, GitHub, GitLab.

Hardware: Arduino, Raspberry Pi.

Other: IT Support, Cybersecurity Fundamentals.

PROJECTS

Spider Shooting Game - Pygame, *Python Game Development* 2025
Created a 2D spider shooting game using Python and Pygame with player controls, enemy movement, collision detection, and scoring system.

Smart Trash Bin — First Prize Winner, *IoT* Dec 2025 – Mar 2026
Designed and built a smart trash bin for a CSC 132 project at Louisiana Tech University. Sensors track how full the bin is and display the data on a website, which also sends notifications when the bin is full and provides directions to nearby available bins. Awarded first place for creativity, innovation, and practical application of technology. Project link

Personal Expense Tracker, *Web Application* Jun 2026 – Aug 2026
Developed a personal expense tracking application to help users organize income, expenses, and monthly budgets, with a user-friendly interface, categorized transactions, and visual spending summaries. Project link
